

PG Hardwood Flooring Inc.

To each our own decor! Which one is yours?

PG® and Model® flooring is your pledge of excellence for beauty and durability of finish. As an industry leader in design, durability and innovation, PG Hardwood Flooring Inc. offers a product that meets the highest quality standards sought by the most demanding customers in the world.

With more than 5 000 hardwood fashion-oriented and natural coloured products, PG is your ideal solution to floor covering. For solid hardwood flooring finished on the premises, prefinished flooring or engineered products, PG is your answer.

Stringent quality control during production from forest to home includes an inspection of each board before it receives the PG stamp of approval. For information on the entire range of PG and Model products, or for complete details on hardwood flooring, browse our website at www.pgmodel.com.

Chic and Appealing

Chic and Appealing is all about subtle and very good taste. The decor features colours and materials that designers seeking new trends find most attractive.

Each accessory is carefully chosen to showcase the centrepiece of the new decor.

Charming Knight

Charming Knight daringly embraces the noble and rich products of history. Nothing is too grand when the time comes to embellish one's life. Take care! This decor is sure

to impress the first time you lay eyes on it.

Sensible Elegance

Harmony and adaptability over time are the hallmarks of the Sensible Elegance decor. Budget-conscious consumers who take great pride in their decisions will turn to chic and

conservative materials, avoiding garish colours that may not age well over time like good wine.

Tender Fizz

A warm and sparkling decor defines the Tender Fizz profile that easily embraces both the modern and the traditional. It is the perfect bridge between yesterday and

today, building a future on the roots of the past. The latest trends easily merge with inspiration from the past.

Yukon Best Reaction

"The name is evocative of gold and wealth. When choosing to install flooring suggestive of a natural product as luxurious as gold, designers will be lured by modern decors inspired by Mother Earth.

Noble materials and homage to the creative genius of Man should be the hallmark of a Yukon environment."

Jatoba Timeless Style

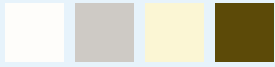

Jatoba, Select and Better

Because it is one of the species that changes colours most often over time, it is an ideal choice for consumers interested in constant change. Marble and brushed metal are its best allies.

Brazilian cherry wood conveys warmth and character, just like the country where it grows.

The Best Choice in the Industry

The perfect balance of our finish is responsible for the beauty and reputation of Model® flooring.

Model Plus polyurethane is the result of several years of research and development to obtain a perfect balance between adhesion, abrasion, appearance and flexibility. These important properties add resistance to the flooring surface in addition to a remarkable gloss finish. This much sought-after balance is exclusive to PG, giving the company a clear advantage over the competition.

Adhesion

PG uses exclusive technology for exceptional bonding of the polyurethane to wood boards.

Abrasion

To ensure that flooring boards withstand the test of time, PG applies an exclusive product known as Model Plus polyurethane to each. Model Plus contains aluminum oxide and this innovation allows Model boards to maintain their glossy appearance for a very long time.

Appearance

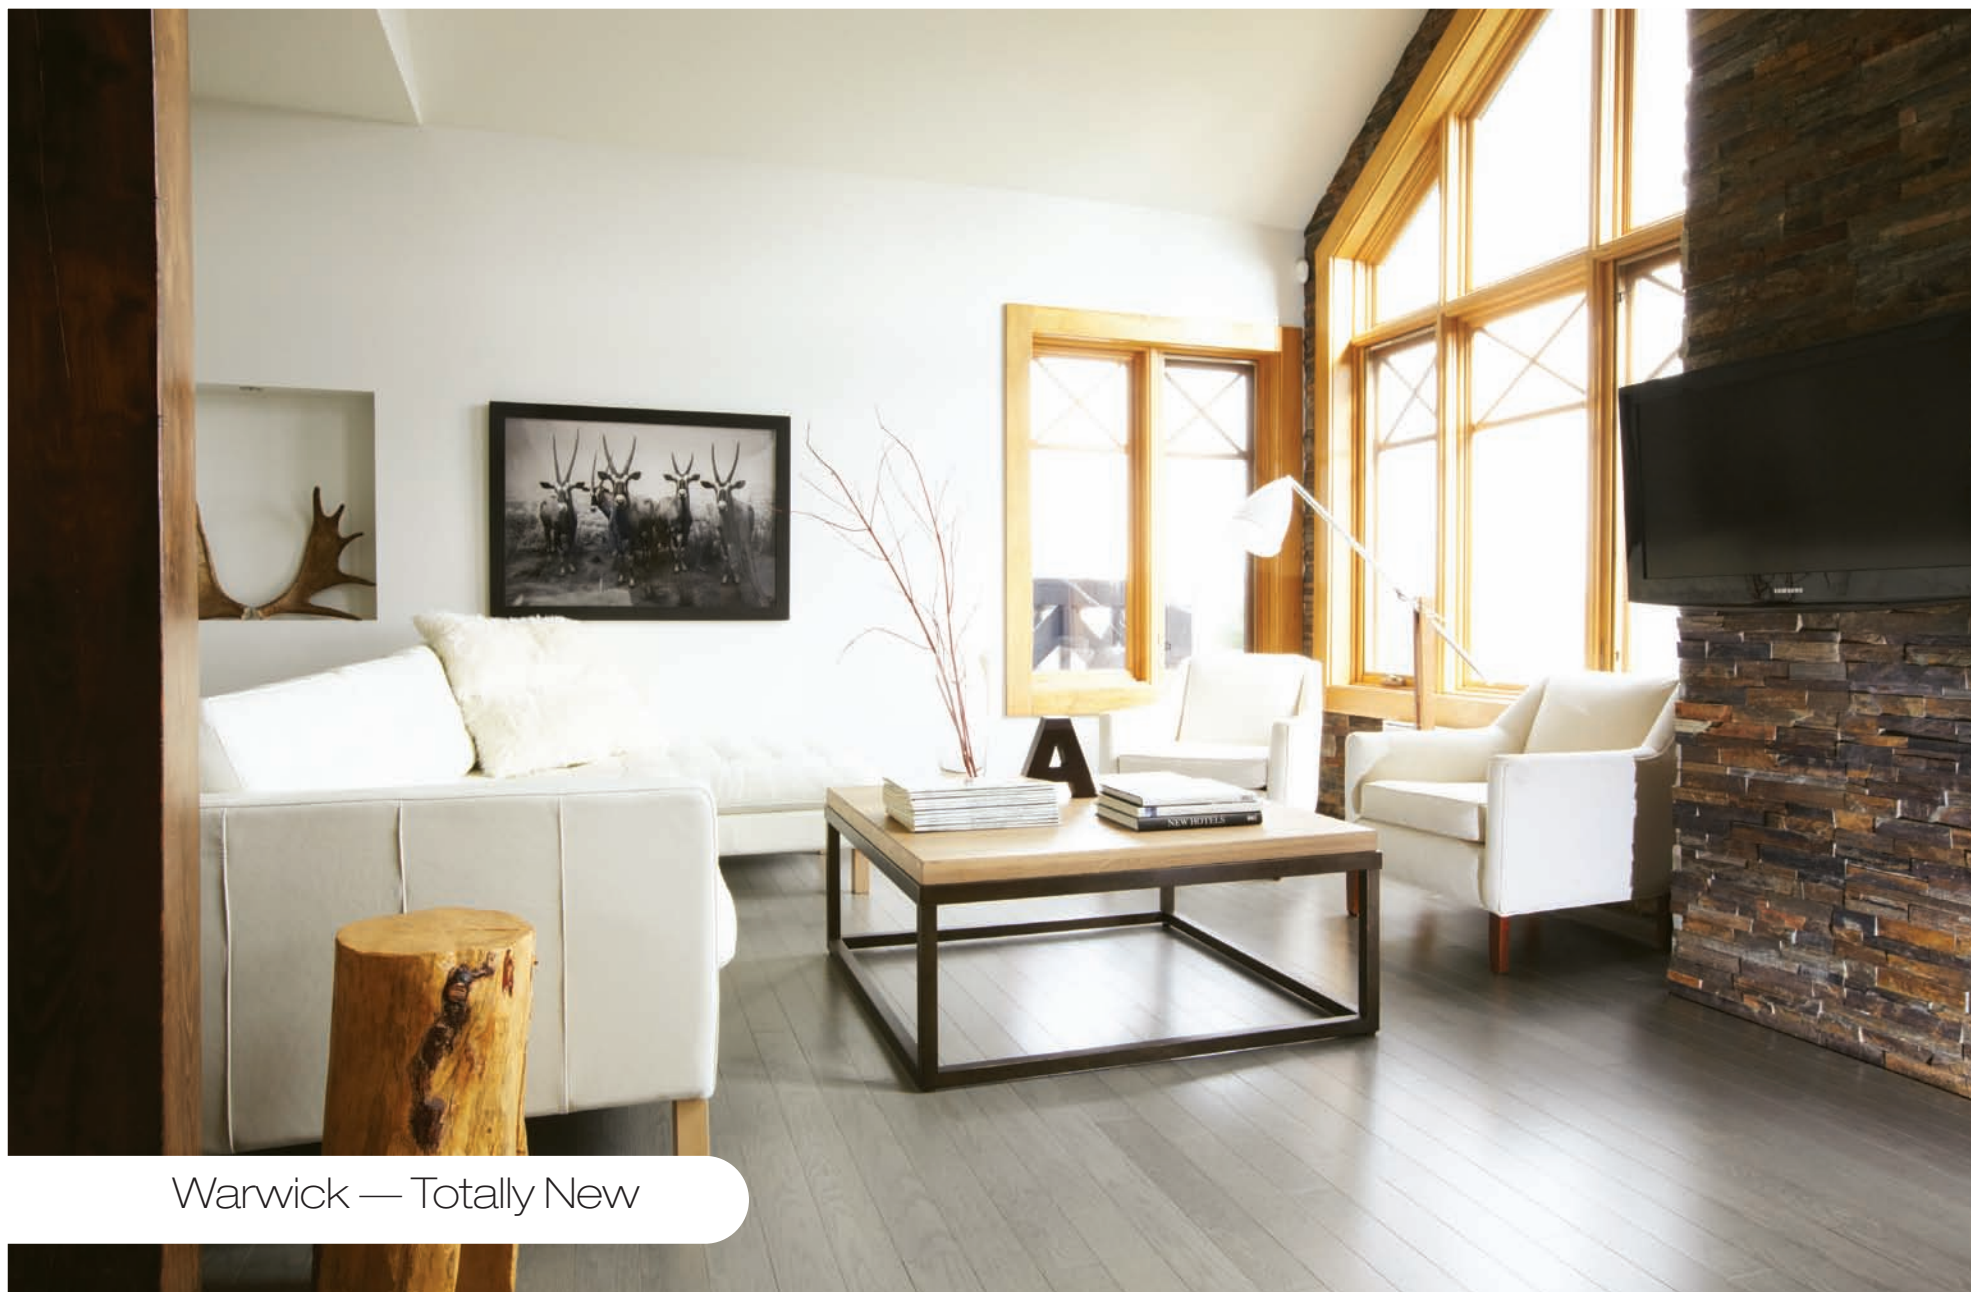

Industry experts know how to recognize Model flooring. Board finish quality is so exceptional that it is comparable to the finish on high-end furniture. At PG, nine coats of Model Plus polyurethane are successively applied, ultraviolet-cured and sanded to obtain the smoothest possible finish.

Flexibility

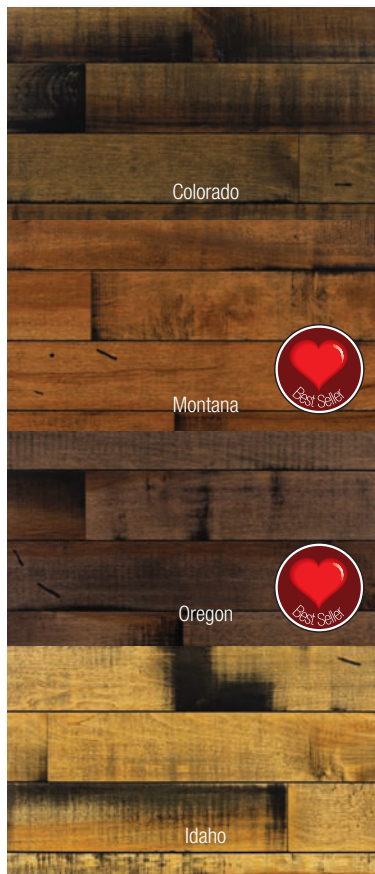

While respecting hardness characteristics, PG has also achieved the best resistance/flexibility ratio in the industry. The flexibility of Model finishes prevents the finish from flaking in case of impact.

Warranties

Installation Guaranteed for 25 Years

Did you know that more than 85% of claims are attributable to poor installation and that these costs are not covered by any manufacturer in the industry? PG has taken the lead with its Model certified installation program. Offer yourself peace of mind and demand that your flooring be installed by a Model certified installer. The latter will comply rigorously with program standards and you will benefit from a 25-year warranty on your installation. Take advantage of the most innovative warranty in the industry.

Abrasion Resistance: Taber Test S-42: 525 cycles

To offer the best warranty, you must simply be the best. Model® products are guaranteed 25 years† against manufacturing and classification defects and against defects in the application of stains and the Model Plus polyurethane finish.

† Refer to the Model warranty leaflet for more details.

Abrasion Resistance: Taber Test S-42: more than 1600 cycles

We are so convinced of the quality of this product that we guarantee it for life against total wear† for residential use and 10 years for commercial use. No one offers a better warranty in the industry!

Maintenance

To maintain your flooring properly, purchase the Model maintenance kit featuring a handle, mop, mop cover, and bottle of Model cleaner from one of our authorized retailers.

A "MODEL" of Respect for the Environment

PG Hardwood Flooring Inc. are FSC® certified for their chain of custody. The incentive underlying this approach is to support responsible forest management to preserve forest capital. Much of our supply of exotic species (from Brazil), along with birch, maple and red oak, originate from FSC® suppliers accredited for their chains of custody.

The consumer purchasing hardwood flooring with the FSC® logo is assured that the forest of origin has been managed in an environmentally friendly manner. By the same token, the consumer contributes to increased demand for this kind of product.

At PG, we are aware of the issues facing the forests of today and tomorrow. This is why we want to participate actively in the protection of our forests with the assurance that responsible forest management decisions taken today will guarantee a promising future.

For more information on our FSC®-certified products, please contact us.

PG Hardwood Flooring Inc, Your Assurance of Reliability

We are proud of our membership in the most respectable organizations in our industry. All environmental and quality standards applied at PG are inspired by the regulations of our member associations. We are committed to offering the latest products available on the market in compliance with the most stringent environmental standards in effect.

You are unique, and so are we!
